Copy of a Report of a Committee of the Honorable the Executive Council dated 18th August 1858. approved by His Excellency the Governor General in Council on the 19th August 1858

The Committee have had before them a letter, dated 21st May 1858 from the Registrar of the University of Toronto, submitting in pursuance of the Order in Council of 21st April last, a Resolution unanimously adopted by the Senate, on the 19th May ultimo recommending that the stipend attached to the following Professorships - viz: Greek and Latin with Logic and Rhetoric, Metaphysics

and

and Ethics, Chemistry and Experimental Philosophy, Natural Philosophy History and English Literature, Natural History and Mineralogy and Geology and Modern Languages, should be fixed at £500 ($2000) per annum, with an increase of $200 per annum after five years from the dates of their commissions, and a further increase of $200 per annum after every subsequent term of five years. These Salaries to cover all present allowances for House Rent. also. That the Salary of the President be

fixed

such be £350 ($1400) per annum, and that the office of Vice President be filled up with a Salary of £100 ($400)

The Honorable Attorney General (U.C.) recommends a Concurrence in the above Report, Except that portion which suggests an increase of £50 per annum for Every five Years Service of the Professors. He states that each Professors Salary may be properly increased at the end of the first five Years of their Service, by £50 so as to make the Salary £350, but that it would not, in his Opinion be Expedient to grant a similar increase for Every four Years

thereafter. That each case should be dealt with as it arises.

The Committee recommend the adoption of the Resolution of the Senate with the modification suggested by the Honorable Attorney General.

Copy of a Report of a Committee of the Honorable the EXECUTIVE COUNCIL, dated 9th September 1858. approved by His Excellency the Governor General in Council on the 18th September 1858.

On a Memorial from John Langton Esq. Vice Chancellor of the University of Toronto dated 2nd September 1858, requesting a reconsideration of the Order in Council of 19th August last, respecting the Salaries of Professors in University College, founded upon a resolution of the Senate of the University.

The Hon.ble the President of the Executive Council in his communication states that from this Memorial it would appear that the effect of the Order in Council in question is to lower the Salaries of the three Senior Professors;- and that the avowed object of the proposed change was to increase the Emoluments of the Professors.

Under these circumstances the President of the Council recommends that the principle adopted by the Senate in their resolution of raising the Salaries of each of the Professors mentioned therein fifty pounds (£50) per annum at the end of every fifth year of service be carried out until after the Expiration of the third period of five years- in other words until the maximum Salary of £650, per annum has been reached.

The Committee submit the recommendation of the President for approval.

The security which Messrs Worthington gave upon the occasion of our making them an advance on their drawback of £2000 in November 1857, was only to be returned when their drawback had again mounted up to the sum to which it was limited by the contract. That contingency having occurred you may now hand over to Messrs Worthington the security then given

Mr Macdonald will be glad if it is in your power to stay the sale, and give Mr Collins time to realize the amount otherwise.

Toronto Jan 12th 1860

My dear Sir

Upon an examination of the income & expenditure of the past year of Upper Canada College I find ~~that~~ there is a deficiency upon the year of $4,186 of which $269 arises from the Boarding House, leaving a balance for the school of $3,917 – Taking your estimate of income from the endowment as given in your letter to the Registrar dated April 13 1859 as $12,560, of which you properly remark ~~that~~ "the College has a right to expend the amount stated whether received or not" & comparing it with the amount actually received, the deficiency on the year appears to be $3239. When you ~~do~~ consider ~~that~~ an extraordinary amount for arrears of taxes, about $1700, has fallen when this year which was so little

able to view it, — when you also consider that the proportion of the expenses of the Bursars office which is charged in 1859 was calculated upon the much larger receipts of 1858, it becomes evident that the falling off of the available income from the endowment is more than sufficient to account for the deficiency. The expenses of the College itself (exclusive of the Boarding House) all that is properly within the power of the Committee or the Senate to contract have decreased from $22,132 in 1858 to 20,129 in 1859, while the tuition fees have increased from $5398 to $6110, making together an improvement in the financial position of the College under these heads of $2715. So far it is satisfactory to the Committee to find that this alarming deficiency does not result from any neglect of economy on their part; but nevertheless the fact remains that the College has got into debt to the extent of $5900, or more probably, as the share of the expenses of the Bursars office

for 1859 is not yet charged, of about $7500. The Committee are therefore ~~impressed with~~ satisfied that, both for the sake of bringing off this arrear & of providing for the recurrence of exceptional years, it will be their duty to reduce the ordinary expenses of the College considerably within the estimated income. They have already initiated some measures, which, without impairing the efficiency of the College, will make some considerable reductions; & they have endeavoured to impress upon the Principal the necessity of the most stringent economy in the incidental expenses. They have also adopted a report made to them upon this subject by me, in which an opinion is expressed that you would be fully justified, in case of a recurrence of excess of expenditure, in exercising the power given you by the Act to make a reasonable deduction from the salaries of the masters, amongst which I think should be included the pensions to late masters.

As to the Boarding House the Committee are of opinion that it is a necessary adjunct to the Institution but that it must be made self supporting. In case

the income from it should exceed the expenditure on an average of years, they do not think that it should be made a source of profit, but the fees should be reduced, but it should in no case be a charge upon the general funds. They propose therefore that for the future the Principals share, if the fees should only be paid to him to the extent of any available balance on the years transactions.

This ~~rule~~ proposition however cannot be carried into effect without a modification of the existing statutes. The subject will be submitted to the Senate & the result will be of course [illegible]

The Hon: the Solicitor General, U.C. recommends that the Board of Endowment be instructed to cause those portions of the grounds referred to in the Memorial & marked on the plan submitted by Mr Vice Chancellor Langton as the part proposed to be laid out, to be surveyed under the direction of the Senate for the purposes referred to but that the Bursar be instructed that, before leasing the lots, the conditions of the proposed leases, & the style & class of Building to be erected thereon, be first submitted for the approval of the Government

The Chancellor, Vice Chancellor, and Senate of the University of Toronto, acting upon the authority given to them by the act of last Session entitled "An act to authorise the Senate of the "University of Toronto to appropriate certain "Lands for the purposes of a Park, and to "include the same within the limits of the "City of Toronto, and to extend the "Police regulations of the said City to "the University lands adjacent thereto" have sanctioned a Lease to the City of Toronto of the Avenues and part of the University grounds as a Public Park, according to the plan hereunto annexed.

The plan contemplated that the reservation abutting upon the public Park on the North East, and South East sides should be laid out into Building lots, whereby not only the Park would be rendered more eligible as a place of Public resort, but an addition would be made to the University Funds.

It is not intended to take any immediate action with respect to the Northern part of the Parke, but the Senate believe that it would

is desirable that the Eastern and South Eastern reservation from the head of the Queen Street Avenue to the Eastern boundary of the Public Park, together with that part of the ground lying between the Observatory and the prolongation of College Street, should be at once laid out as contem-plated. They would therefore respect-fully request that the Board of Endowment be instructed to cause these portions of the grounds to be so surveyed under the direction of the Senate, with a view to their being leased for building lots.

All which is respectfully submitted

To His Excellency Sir Edmund Walker Head Baronet, P.C. &c. &c. Governor General of British North America, and Visitor of the University of Toronto.

May it please your Excellency

The Chancellor, Vice Chancellor, and Senate, of the University of Toronto, beg leave to represent to your Excellency that they have incurred great cost in erecting Dwelling houses for the Director of the Observatory and his assistants, the Dwellings which were attached to the Observatory when originally established being of a temporary character, and in so ruinous a condition that it was not thought advisable to incur any expence in repairs. It was not contemplated, when the University assumed the management of Observatory, that this charge should fall upon the University, but as it was necessary to provide immediate accommodation for these Officers, the Senate have authorised the expenditure, and the Observer's Cottages are already completed, and the Director's House is under Contract.

There will also be a considerable outlay necessary to lay out the grounds around, and complete the approaches of the new buildings, and many incidental expences may be expected to arise from the removal.

Such extraordinary expenditure should not properly be a charge upon

Income; nevertheless the Senate, being
averse to encroach upon the Permanent
Fund, by applying for any appro-
-priation beyond that already sancto-
-ned for the new buildings, and
Library and Museum, had intended
that the whole of these expenses
should be met out of the annual
Income, and they believe that there
would have been no doubt of this
being done, had not the commercial
depression of the last two years reduced
the receipts from rents and interest
on sales, and almost entirely put
a stop to new purchases.

They are therefore under the
necessity of applying to your
Excellency in Council to authorise the
Bursar to advance for these pur-
-poses out of the Permanent Fund
a sum of Ten Thousand Dollars, to be
repaid from the surplus Income
of following years.

All which is respectfully
submitted.

My dear Sir

I have seen J. C. about the plans & he agrees – thinks it seems the outside that leaves should be for –

I also showed to H Excellency who says he will assent but objects to the plan as a precedent of tents. He suggested that we might

that should be the rent – This would make a body cost his about £20 a year – I mention this as a guide to you –

Sir

It appears that on the 2nd Jany 1830 (the late) Hon Thos Talbot sold to Andrew Wilson the South 100 acres of No 14 in the 4th Range South of the Longwood Road in the Township of Ekfrid at 12/6 per acre - receiving payment in full. The lot consisting of 135 acres was however granted by Patent - 16 Nov 1832, to the Kings College.

£62-10/-

The lot is now in the possession of Alex Campbell as the assignee of Andrew Wilson mentioned above -

As the purchase money (£62.10/-) was paid over to the Government, I am desirous of knowing whether the Council of the University of Toronto will consent to give a title to Mr Alex Campbell upon

The Memorial of the Undersigned.

Sheweth.

That a certain portion of the University Park, Toronto, was enclosed & used as a Garden, for your Excellency, during the time that the seat of Government was at Toronto.

That this land, being no longer wanted for that purpose, there does not appear any reason why it should not be again placed under the Control of the University.

That if the University has to find a tenant for the Garden, during the next season, it would be necessary that all the arrangements should be made this Autumn, in order that the tenant may make his preparations before the Winter sets in.

Your Memorialists would therefore pray, that, Your Excellency would cause all that portion of the University Park, now in the occupation of the Government, (except such land, as is attached to the Lunatic Asylum) to be surrendered to the Bursar as soon as possible.

Dear Sir,

I enclose the V.C.'s order for the payment of scholars. There is one important difference between the present and preceding lists, viz: that it only directs payment of 1/3 of their Scholarships to Scholars in Law and Medicine, instead of 1/2 as heretofore. The V.C. thinks the present the better arrangement, as it tends to prevent confusion. Upon your notifying me that the cheques are ready I shall put up the usual notice.

Dear Sir

Mr Howard tells me that you wish me to name the price to be given for the wood with which he has supplied his establishment. I do not well see how I am to do this after the wood has been delivered. Had I known that this was expected I would have taken care to ask the price and make my bargain before, but

would have enquired where it was to be got elsewhere; but understanding that you always contracted with Hewart and that I was in a measure tied down to get the wood from him I have done nothing but order it
